And What Came of It.

The "Japan Chronicle" of Nov. 27 reports: An extraordinary story of a planned attack by soldiers from the offices of a Japanese newspaper is published in the "Osaka Jiji," and it seems that only the prompt intervention of the officers pre-

vented the plan being carried out. According to the "Jiji," a statement appeared in the "Asahi" on the 21st instant to the effect that the men in the 4th and 16th Army Divisions who joined in 1904-5 were released from service on the 20th instant, but those men who had been punished for military offences during their service had discharged on the 20th because it was more convenient for the military authorities to discharge the men in two detachments than simultaneously.

That such a large number of men could Future. be detained for "compensation service" as stated by the "Asahi" was impossible but the friends and relatives of the men; not being acquainted with military affairs, read and believe the newspaper report, and many of them wrote to the tempobeing compelled to do "compensation service." The innocent soldiers were in their turn greatly surprised by the receipt of these letters, and wrote back at once explaining that the reason they had not been discharged was not that they had misbehaved themselves, but that some of the men were being released from the service one T. MATSUKI, Manager, Hongkong, day before the others. As a result of this complication, it is said that there were 816 not a few indignant callers at the "Asahi office, and that journal in due course SOCIETY ST. VINCENT DE PAUL. published a correction of the misleading and inaccurate statement made in its

> On Monday evening, reports the "Jiji, the men of the 8th Regiment decided 't make an attack upon the "Asahi" office after supper, but the plan reaching the ears, of the officers, the men were mustered and remonstrated with, being cautioned against committing any act of violence or disorder. The gates of the barracks were closed, and none of the men were allowed to go out. - It is stated that some of the non-commissioned officers who for some reason are unfavourably disposed towards the "Asahi" andeavoured to stir up the men's feelings again, saying that they were unworthy of the name of soldiers if they allowed the incident to pass without having revenge upon the "Asahi" office. The men again got very excited, and resolved to make a concerted attack upon the newspaper office and smash the plant and nuchinery on the night of the 28th instant. Fortunately for all concerned, information of this second plot also reached the commanding officers, and the men were again remonstrated with. It was pointed out by the officers that it was not a soldiery act to seek revenge for a mistake; the false report had been published unintentionally and unknowingly, and a retraction had been made. According to our contemporary, the men are being closely watched, and every precaution is being taken to prevent any disturbance.

of the wonderful wedding trousseau of Princess Marie Bonaparte, who is to be (TO PELLIBERT SYNSRY) married to Prince George of Greece next L'AOPRISTORS month, it was only to-day that M. Drecoll, of the Place de l'Opera, invited the elite

of Paris to see the dresses. The total cost of the trousseau, which is a gift from Prince Roland Bonaparte to his daughter, will exceed £60,000. It is made on a truly regal plan, and includes nearly 100 dresses, of which forty are low-necked gowns, the remainder being made up of morning gowns, tea gowns, travelling dresses, cloaks, etc.

The wedding dress is said to be a vision of white satin and Valenciennes lace, but Princess Marie Bonaparte has decided that no one shall see it before the wedding day -not even her finance. As to the dresses on view, it is impossible for a man to try to give any description of them.

There is also a very fine assortment of tablelinen. The lingerie alone cost £15,000, and Brussels laco figures very largely in its composition.

In addition to the royal trousseau, which has taken three months to make, there was a fine collection of rose-coloured satin

Some of the Princess's jewels were also on view to-day, including the magnificent diamond which she will wear on her wedding day.

CHINA'S FOREIGN TRADE.

about \$328,000,000, the share of this country being approximately 10 per cent. Her purchases from Japan exceeded those from this country by 40 per cent. Thirtyfive per cent, of her imports come from Hongkong, which is merely a distributing centre. It would probably be possible to trace the merchandise handled through that entrepot and find its various original sources, but the figures for doing so are not immediately available. . Such an analysis would doubtless increase the figures of our China trade by a few millions of dollars, but the amount would not be large, for the reason that our Hongkong account last' year was only l'oute.

England's direct sales to China last year were \$63,000,000, and it is certain that a large percentage of China's receipts from about \$14,000,000, probably subject to increase through the Hongkong business The sales of other countries run from a few hundreds of thousands to a few millions of

China's exports for the year show value of about \$190,000,000, or a good deal less than twice those of Cuba, whose population stands to that of China as 1 to 200. The head of the list is silk of a value of 356,000,000. Her teas brought \$20,000,000 and raw cotton about \$10,000,000. The remainder includes beans, beancake, hides and skins, mats and matting, oil, straw

What this rast land and population will do if the people really waken to an active use of their economic resources is mere conjecture. As a trade field at the present time the conditions of China hardly justify the attention paid to it.

The match, Hongkong Club v. Club Germania, was concluded last night, and the Hongkong Club proved victorious by 346 pins. In spite of the fact that they were 78 to leeward on the first night's roll, they bucked up wonderfully well yesterday and completely turned the tables on their rivals. Their success was in a large measure due to J.W.C. Bonnar, who had the honour of being top-scorer, 1457, but by a very small margin, A. Rombach, tho German crack, being only 3 pins less in aggregate. Third place was filled by J. P. Leshy, and his total of 1316, though somewhat behind that of the two leaders, i very good for a bowler in his first match. The rest of the English team all scored over 1200, which feat was only accomplished by 3 of the Germans besides Rombach. (From Our Correspondent.)

EDINAURAIL, November 15.

There was nothing sensational in the list of the King's Birthday honours, unless it were that the promotion to peerages was, in yulgar parlance, "cut off at the meter." Sir Henry Campbell-Bannerman is never above taking a cue from his followers; and the outery which arose six There has been a storm in the North, and months ago, when he sent a number of his all the higher hills are heavily coated with Radical supportors to sit in a Gilded Chamber that he had marked out for annihilation, has evidently had its effect.

From communications which are passing between the War Office and the local authorities of Irvine, it is understood that burracks are to be crected near this West Coast town. The rumour is—and it must be taken with reserve—that these barracks will be for cavalry. In that case, of course, Piershill, near Edinburgh, is doomed. The Glasgow Golf Club have links at Gailes to the south of the town; their of the late municipal election was that lease will expiré in two years; in all likelihood their ground will be taken by the Government; and in the meantime the Club have voluntarily given up 35 acres so that building may be started early next Note,-The supply from the original spring. It is impossible to refuse sympathy with Cabinet Ministers at the present time. At their every meeting in every part of the country they have to face a small but determined body of suffragettes, who interrupt them in the most extraordinary fashion at the most inconvenient moments, It does not matter whother the speech i about the House of Lords or the Education Question, the Irish Home Rule cry or the Scottish Land Laws-when the unfortunate Minister reaches a telling passage or the "nib" of an argument, an excited lady is sure to rise in the body of lying over the Sea of Japan yesterday, has the hall and make irrelevant observations moved into the Pacific to the E. of about "We women." The shadow of trade depression is over the land. There are many signs of the coming of lean years. A few days ago, Dunfermline was complaining about the falling off of orders from America. Now a similar cry comes from Kirkcaldy, where the linen manufactures are to put their establishments on half time. On the Clyde, the new orders for October only total one ship, and most of the yards are nearly fluished with the work on hand. Butter in Favour.

The "Japan Mail" publishes the following interesting observations on the growth of the consumption of milk and butter by.

CONSIGNEES of Cargo from London ex S.S. Medoc and Charente; from St. Nazaire ex s.s. Ville de Rothefort; from Bondraux ex s.s. Leroy Lollier, in connection with the above Steamer, are hereby informed that their Goods, with the exception of Oplum, Treasure and Valuables, are being landed and stored at their rinks into the hazardeth and/or extra hazardous Godowns of the Hondrons & Kowloon, whence delivery may be obained immediately after landing.

Japanese:

One of our local contemporaries remarks that the Japanese as a whole do not eat butter because they do not like it; that all the butter made in the country is for foreign consumption, and that "in the absence of any serious attempt at daily farming and the utter ignorance shown on the subject, the possibility of Japan becoming a butter-making country is remote in the extreme."

Well, the fact is that a great many things One of our local contemporaries remarks Well, the fact is that a great many things which seemed at one time extremely re- B mote in Japan have come into very close proximity. Butter is slow in following Bills of Lading will be countersigned by the Undersigned, and Goods remaining unclaimed after MONDAY, the 16th December, at Noon, will be subject to rent and landing charges.

All claims must be sent in to me on or before the 16th December, or they will not per cent. of the persons visiting a foreign be recognized.

All damaged packages will be examined restaurant or eating a foreign meal at a JB MONDAY, the 16th December, at friend's house would have thought of touching butter 25 years ago, fully 40 or 50 per cent. eat it with relish now when it comes in their way. They are quite con-1950 tent to do without it but they like it when C they get it. As to dairy farms they have increased notably in recent years. In the immediate vicinity of the place where we write, it is possible to count four dairy farms, the largest of them having a stock of shout 60 cows. Butter, however, FROM ANTWERP, LONDON, MALTA, is quite a by-product at these places. It is to milk that they look for their profits. Milk has a curious story in this country. Thirty or forty years ago it was abhorred -the expression is not too strong. The average Japanese could not induce himself to drink it. But to-day every household that can afford it consumes one or two "bottles" of milk daily, partly because people-have come to like it and partly because the doctors have recommended it as a uniquely wholesome beverage. "Milk Goods not cleared by the 13th inst., halls," too, stand next to "beer halls" in number though as yet there is a considerable distance between the two. Butter will probably take much longer to come widely into vogue because of its expensiveness. A pound of fresh butter costs at

DISTRESS IN INDIA.

Thousands of People Starving.

A correspondent of the "Statesman" wired from Jajpur (Cuttack) on the 11th ult. :- "The floods have left over an extended portion of thearen a thick blanket of sand, in some places several feet deep, and it will be impossible for the cultivators to prepare their land for cultivation for years. The crops are hopelessly destroyed. After the floods had subsided on the land untouched by sand, fresh crops were planted, but these were also destroyed by a subsequent drought. The entire population is in dire distress, thousands have died and thousands of homesteads are damaged or destroyed and in some cases obliterated. Hundreds of people are still homeless. It is estimated that 300 square miles of Orissa were inundated. I have personally inspected the conditions prevailing in twenty-two villages on the north eide of the River Brahmini. It was an amszing disclosure of distress caused by famine. Hundreds of starving people followed me, imploring me to give them food and assistance. I saw people cooking herbs, tree bark and roots. I saw three men fighting for the possession of a palm stom. In some cases the sufferers have sold their cooking vessels, door posts, house beams and cattle, the latter at nominal prices, to buy food, but Government is still realising the Chowkidasi tax.

MAR J. B. VAN STRALES DORFT resides at IVI Dickinkarta, Java, and holds the position of storokeeper to Messry J. van. Gorkom and Company, the well known Apothekers of that place. "Dr Williams" Pink Pills are really wonderful," was the verdict he gave when asked what his ox perience had been, and the following are the facts upon which he based this en thusiostic opinion.

"I suffered for a long time from BACK PAIN AND DIZZINESS. said Mr Van Stralendorff. "In fact for no less than four years I was afflicted in this Very often I had to leave work and

DEPRESSED AND WORN-OUT. During this period of ill-health I tried many medicines, but as instead of getting better my miserable condition became worse, at last I feared I should not be able to continue work much longer, and that soon I would have to give up my position. "But about this time my attention was directed to Dr. Williams' Pink Pills for

Pale People. I saw that many people WERE BEING CURED by the use of these Pills, and so I resolved to try them myself. After the use of three bottles of Dr. Williams' Pink Pills I felt greatly relieved of my silments, I continued taking the Pills until I found myself quite restored to health. and can work better now than I have done for years. Yes, Dr. Williams' Pink Pills are undoubtedly a wonderful medicine! You have permission to publish my testimony. Here again is fresh evidence proving the wonderful curative powers of Dr. Williams Pink Pills for Pale People in cases where ordinary medicines have failed. Dr. Williams' Pink Pills are different to other medicines. They are a Tonic Blood Purifier -while cleansing the blood they at the same time make it strong and good and this rich, red blood drives out the causes of sickness, and restores all the organs, of the body to sound vigorous health. Those Pills, as abundant testimony proves, have cured Amemia (weak watery blood), Malaria, Debility, Early Decay, Disordered Liver, Indigestion, Sick Headache, Rheumstism, Nervous Breakdown, Beri-Beri, Paralysis, Eczema, Scrofula, Boils and Skin cruptions generally, and the after-effects of Fevers, Dysentery and Chills. Ladies between the ages of fifteen and forty-five find in them immediate relief at the trying times, and men broken down by over work, residence in an unhealthy climate, or other cause are speedily restored by their use. Obtainable at most shops where medicines are sold, also direct from the Dr. Williams' Medicine Co., Singapore, who send 6 hottles for \$8 or 1 bottle for \$1.50, post free to any

CUTICURA REMEDIES BROUGHT HIM HEALTH

"While I was stationed at Bellary; in India, with my regiment from 1806 to 1901, I contracted "malarial eachexia," which brought on a complication of diseases. I suffered frequently with ague and my chest and back became covered with large sores and pinceles, my face was also disfigured with these sores or ulcers. My blood became very poor. I was admitted into hospital, but the treatment I received did not seem to give me any relief, as I became very emaciated and weak. I lost my appetite, had no energy for I lost my appetite, had no energy for anything, and my weakness was droadful. Early in 1901 I was invalided to England for a change. On arrival I was sent to several hospitals, but still no signs of recovery. After some months of treatment I was finally invalided out of the service as medically unfit through my sickness.

I then thought I would try the Cuil-cura Remedies, chiefly on the recom-mendation of my wife, who had great faith in them, having used the same in India for roughness of the face, red pimples, and blackheads. After I had used four sets, which included Cuticura Sonp, Cuticura Ointment, and Cuticura Resolvent Pills, I began to see and feel a great improvement, I was less languid, my appetite improved. I felt stronger, and the seres and pimples began to disappear. I continued to methetreatment for about nine months. Finally I was quite a different men, lost the yellow tinge my skin had, the sores and pimples quite disappeared, and I became strong again and able to go to business daily, which I have done ever since. I thoroughly recommend Cuticura Remedies for humours of the blood and affections of the skin Thomas Reader, late Sergeant in a British Infantry Regiment, 143 Totterdown St., Tooting, S.
